Their school is growing rapidly.

CAPT. GEO. EVERETT, State Superintendent of convict labor on the Kentucky Central extension, was shot and killed near Winchester Tuesday. Everett had drawn his pistol in a quarrel with a negro workman, who grabbed the weapon, and as they struggled for its possession it was discharged with the above result. Mr. Everett was a former resident of Montgomery county, and during the war served as a Lieutenant in Capt. Pete Brambriett's company from Bourbon and Montgomery, and connected with the 4th Infantry of the Kentucky Brigade. He was also a brother of Peter Everett, the gallant raider.—LATER. Not dead.

FIFTY out of nineteen items in the Millersburg department of the *Bourbon News* Wednesday, had been published in the two preceding numbers of the *BOURBON NEWS*. Many of them were verbatim, while others were changed, but a little. The local columns also contained several verbatim local and "quite a number of 'kittened' ones. If the dear, sweet Kentuckian—that regular Jesus shawd would only give proper credit, it would get caught less by its local patrons. The *News* guards strictly against publishing anything that is in our local papers unless it is something worthy of giving credit for, and hopes in the future to be treated in the same courteous manner.

A Dirty Scandal.

ABOUT the dirtiest scandal that has been unearthed in Kentucky for some time, dropped the bloom in November and ripened and rotted in over-matured fruit in *Curtis Tuesday*. Dr. J. L. Robbins, of Myers' Station, married a Miss Smith, of October, and in November forced her at the muzzle of a pistol to a confession of incest with her brother before marriage. The Dr. also forced at the muzzle of a pistol seven notes of \$150, each covered by land mortgage, payable to himself, as a bonus for living with her, and the protection of her name in future, from his wife's brother, John Smart. Now suit has been brought in Court for setting aside the notes and mortgage on the grounds of fraud and intimidation. Mrs. Robbins has gone to Missouri, and her dear Dr. is lurking at the home of his father in the county. The sheriff has a warrant charging him with robbery, in his hands for the arrest of Robbins.

Some Plain Facts.

We have figured carefully on the actual cost of the *News*, and find that the paper, postage, and all things incident thereto, aggregate \$1.75 to each subscriber. We sell it for \$2 in advance and make the insignificant sum of 25 cents. Hundreds of subscribers don't pay in advance, but "pay in a few days" which in many cases amounts to months; then it takes twenty cents worth of stamps and stationery sent out as dues, to collect the profit of five cents, and frequently we have a subscriber who insists on acting a thief and absconded over so small an amount as two dollars. Verily this is a peculiar world, and it is dotted all over here and there with men without the slightest conception of honor, principle or gentility. The idea of an editor surrendering all opinions and making a gush-dunk out of himself and monkeying to the whims of every darned fool for the simple sum of five cents, is ridiculous. It is not within the scope of our journal or true manliness to have to puff every little scallawag as "the popular" and "efficient" Mr. Bombaziers has a new hoe handle, stove-pipe or broad ax; or, the "vivacious" little Miss Spitfire took dinner across the street yesterday. No, Sir! That is different from our idea of journalism. A journalist is one who disseminates intelligence, collates the news, analyzes questions of local and national importance, deduces opinions, and seeks to elevate society to a standard high above that little one-horned, gaseous business that sees nothing but prices in society and line-legged chickens in plebeian pestilence.

HON. W. C. OWENS is a candidate for re-election to the Legislature from Scott County, and if elected will again be a candidate for Speaker of the House.

FOUR car loads of ammunition were received at the Kentucky Arsenal last week from Rockford, Ills. Just two car loads each to save the scalps of Neal and Craft.

THE philosopher who advised people to "keep their heads busy," evidently overlooked the fact that many a man has taken advice and landed in the penitentiary.

THE London Times says the most uncertain element in the conditions affecting the value of money in 1883 is the action of the American Congress in regard to the Tariff Bill and currency legislation.

MADE and Slade were arrested at New York to prevent their advertised sparring match. The police guarded the entrance to the Madison square Garden and would not allow the assembled crowd to enter.

THE temperance people of Iowa have called a State convention, to be held at Des Moines February 7, when their future policy will be discussed. The recent decision of the Supreme Court, holding the prohibition amendment not in force, has caused the agitation.

THE Supreme Court reversed the decision of the Kentucky Court of Appeals, refusing Bush, the Lexington murderer, a new trial. The grand jury that indicted Bush, a colored man, was composed of white men exclusively, and Justice Harlan, who delivered the opinion, holds that the State law regulating such matters was inconsistent with the Fourteenth amendment.

MRS. LANGTRY says that Freddie is nothing but a boy of 23. A mere boy, and that it is wicked for folk to suspect anything out of plumb. In England chaps of 23 may be nice playthings for fashionable ladies, but they may be harmless, but in this country little fellows who are not more than 23 are lively playthings.

THE prospects are that in the Forty-eight congress there will be about forty contested seats. It is plainly manifested that the fever in this direction is more intense every year. Going back as far as the Forty-third congress we find only forty-two contested cases; in the Forty-fourth, nineteen; in the Forty-fifth, sixteen; in the Forty-sixth, eighteen, and in the Forty-seventh congress twenty-two contested cases.

AN editor in an obscure town recently passed in his checks and crossed to the beautiful land beyond, when his rival generously wrote: "We were opposed to him personally and politically, and he fought hard. In looking back over the events of three years, we say cheerfully that he was a square fighter and as honest a man as ever trod the wind-swept plains of sunny Texas."

BILL NYE, the Laramie Boomerang man, is a tall, well-shaped fellow about thirty-eight years of age, with regular features, a close-cropped brown beard, sharp brown eyes, a fine forehead, and a bold head with a fringe of brown hair. He dresses simply and in good taste. It is only occasionally that his humor crops out in conversation, and his manners are otherwise mild. He appreciates a good story, a well-made cocktail, a mild cigar, and plug tobacco.—[Denver Tribune.]

A COLORED man, in Henderson county, has been sent to the penitentiary for one year, for obtaining a beefsteak under false pretense. This is in strict keeping with American justice. Will guarantee that each individual of the jury which pronounced this very unjust sentence is a bigger thief than this poor hungry man. If the poor man had robbed a bank he could have bribed the jury and been cleared. All such juryman ought to be wrapped up in a pole-cat skin and banished to the land of imbecile jackasses.

IT is now proposed to pay every person who lost an eye in the army or navy during the war a pension of \$15 a month. If the injured person thinks his other eye has been in any way affected by the first pension is to be increased to \$25 a month. It is easy to see how the claim agents will increase the pension list with such cases. They will get hold of all of the one-eyed men they can find, provide them with the fraudulent papers and put them through and pocket the fifty per cent, or more of the proceeds themselves.

THE town marshal of Somerset has glorified himself by chasing a drunken man and firing on him until the drunkard fell dead, because the drunken man resisted arrest. Although the drunkard fired a pistol before running, the Coroner's jury very justly rendered a verdict that the killing was not in self defense. We repeat again, that there is not one man fifty that knows what self-defense is, and that the very explicit law defining it ought to be published semi-annually in every newspaper in the State at the expense of the public Treasury.

KENTUCKY has 117 counties, and sixty of them draw more money out of the State Treasury last year than they put in. These counties, too, abound in coal, iron and lumber, and can be made the wealthiest counties in the State. The State is amply able to build several branch railroads through those now barren lands, and by so doing would not only make wealthy a now impoverished lot of paupers, but in the same ratio swell its Treasury. If the Kentucky Legislature would ignore politics and attend to the business wants of the people a new era would soon dawn upon the now dead old Commonwealth.

THE grand jury of the St. Louis Criminal Court reports that at least eighty per cent. of the crime and pauperism of that city is attributable to the saloons, and recommends that their minimum license be placed at \$1,000, and those which sell only wine and beer, \$500.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, or, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

For a long time I have been a sufferer from stomach and kidney disease. My appetite was almost lost, and the very small amount I did eat I tried many times to throw up. I tried many remedies, but to no purpose, until I used BROWN'S IRON BITTERS. Since I used that my stomach trouble is no more, and my general health is such, that I feel like a new man. After the use of one bottle of BROWN'S IRON BITTERS for one month, I have gained twenty pounds in weight.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

ATTENTION, HORSEMEN!

We call the attention of the farmers and breeders of horse stock, that I breed at my place, horses for beauty and symmetry as well as for trotting purposes. If a careful inspection is due to the sire and offspring of any horse, I would then most respectfully call attention to Caliban and his offspring—some ten or twelve of which can now be seen at my stable. Caliban will be permitted to serve a limited number of mares the coming season, offered by first-class men, (no money need apply) at \$25 to insure.

Caliban has a record of 2:34, and in the opinion of such horsemen as Dr. L. Herr, he could have trotted as well or better than 2:30 on the day which he his record. Two of Caliban's yearling colts showed better than a four minute gait on my individual track last Spring.

I will call the attention to the fact that Caliban is the sire of Cyclone and Coaster, both with records better than 2:27.

The Most Successful Remedy ever discovered as it is certain in its effects and does not blister. Also excellent for human flesh. READ PROOF BELOW FROM

COL. L. T. FOSTER.

YOUNGSTOWN, OHIO, MAY 10th, 1880. B. J. KENDALL & Co., Gents.—I have a very valuable Hambletonian colt, a two-year-old, which I prize very highly; he had a large bone spavin on one joint and a small one on the other, which made him very lame; I had him under the charge of two veterinary surgeons who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it, and got our druggists here to send for it; they ordered three bottles, I took them all and thought I would give it a thorough trial, and used according to directions and the fourth day the colt ceased to be lame, and the lumps had disappeared. I used but one bottle and the colt's limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so successful that I let two of my neighbors have the remaining two bottles who are now using it. Very Respectfully,

L. T. FOSTER.

Kendall's Spavin Cure.

ON HUMAN FLESH.

Patten's Mills, N. Y., Feb. 21st, 1878. B. J. KENDALL & Co., Gents.—The particular case on which I used your Kendall's Spavin Cure was a malignant ankle sprain of sixteen months standing. I had tried many things but in vain. Your spavin cure put the foot to the ground again, and for the first time since hurt in a natural position. For a family liniment it exceeds anything we ever used.

Yours truly,

Rev. M. K. Church, Patten's Mills,

N. Y.
